Summary

Detail-oriented and analytical Data Analytics Engineer with 7+ years bridging data operations and AI-driven automation. Strong communicator with cross-functional collaboration skills and a decision-making mindset.

Experience

MM digital Press

Kathmandu, Nepal

Data Analyst (Freelance)

2026 – Present

- Designing and deploying an automated reporting suite using Power BI and Google Sheets, Excel to streamline SLA tracking and operational cost analysis.

Valeo

Cergy, France

Data Analytics Engineer (Internship)

Apr 2025 – Oct 2025

- Built *Jenga*, automated pipeline processing 50+ live financial reports across 64+ cycles via Google Apps Script; eliminated 270+ hours of annual manual overhead.
- Engineered RAG AI agent (Gemini) with self-produced tutorials for autonomous team troubleshooting and data ingestion workflows.

Axiom Technologies

Paris, France

IT Infrastructure Engineer

2021 – 2025

- Managed infrastructure at Tier-1 data centers (Equinix, HCL, ETIX) for Microsoft, Bouygues, Orange, ANZ Bank; 30% faster incident resolution across cross-functional teams.

Cloud Factory

Kathmandu, Nepal

Data Specialist & QA Lead

2016 – 2019

- 95% annotation accuracy across 70+ AI/ML finance clients; trained new members within one week.

Projects

Data Warehousing & Power BI Dashboard –ETL pipeline (SSIS, SQL Server) for 1M+ records; SLA 88%.

Modular Brain: Persistent AI Context –Persistent memory framework for LLMs; reduced hallucinations by 45%.

RAG YouTube Video Analysis –Queryable knowledge base from YouTube channels via vector embeddings.

Time Series Model for French GDP –Predictive model (1960 to 2015); $R^2 = 0.92$.

ML Pipeline for Diabetes Diagnosis –End-to-end ML on 15K records; 92% accuracy.

Education

DSTI School of Engineering - Applied MSc in Data Analytics

2024 - 2026

ESCC Business School - Bachelors in Business Administration (BBA)

2021 - 2024

Tribhuvan University - Bachelors in Computer Science and Information Technology (BSc CS & IT)

2018 - 2021

Certifications

IBM Data Analyst | Microsoft Power BI | **Neo4j Certified**

Languages

English (C2), French (A2,B1), Nepali (Native), Hindi (B1)

Skills

AI & Programming: Python (Pandas, NumPy, Scikit-learn), R, Streamlit, LangChain, ChromaDB, RAG Pipelines, Vector Embeddings

Data Engineering: SQL, NoSQL, SSIS, SQL Server, Snowflake, BigQuery, ETL/ELT Pipelines, Data Warehousing, Data Modeling

BI & Visualization: Power BI, Tableau, Looker, Amplitude, Excel, Google Sheets, KPI Development, Dashboarding

Business & Strategy: Business Analysis, Growth Strategy, Forecasting, Statistics, E-commerce, Warehouse Management
